The Disappearances Project

When a person goes missing from a small community the effect can be devastating and wide-reaching. When their disappearance remains unsolved many years later, the effects of prolonged not-knowing are agonising. Tracing the trajectories of hope, anger and grief over years of police investigations in a range of unexplained disappearances, version 1.0 explore the effects of long-term missing persons cases on family members and communities.

Following the journeys of those left behind in the wake of disappearances, *The Disappearances Project* explores the search for both lost loved ones and for the pieces of shattered lives. An intimate new work from the Helpmann Award-winning performance group version 1.0.

REGISTRATION FORM
