### *‘Driving To Engage’ Program*

We are delighted to announce a newly formed partnership with The Salvation Army Employment Plus to support the ‘Driving to Engage’ project, funded under the Better Futures Local Solutions funding.

This project is designed to provide support for participants to obtain a provisional driver’s licence thorough completion of supervised driving hours with a driving mentor. Services have identified that living in the Rockhampton Region can present barriers to transport and holding a licence will increase the likelihood of gaining employment and actively engaging in community events.

We need your help to assist these participants obtain their driving goals.

- Would you consider being a ‘driving mentor’ in a dual control fitted and authorized vehicle?
- Are you available for a few hours each week?
- All training and support provided by PCYC, Department of Transport and Main Roads, and Employment Plus
