

## First Peoples Disability Network Australia

The First Peoples Disability Network (Australia) FPDN is the national peak disability organisation representing Aboriginal people with disabilities and their families. integratedliving Australia is a not-for-profit community business delivering a broad range of quality community care services across regional and rural New South Wales and Queensland, providing services to the frail, older people, younger people with a disability and their carers.

Together we would like to meet with Aboriginal people with disabilities and their families as well as anyone else who would like to talk about disability. We want to yarn about disability and ways that we can be a voice for Aboriginal people with disabilities and their families.
