## Purpose

*Anglicare Central Queensland exists to assist individuals, families and communities to live life to their fullest potential.*

Anglicare is a not-for-profit organisation that relies solely on funding from the government, fundraising and donations from the community.

Anglicare's primary role is to respond to the need of those who would benefit from our service. Our services help many groups including—children, young people, Indigenous people, families, couples, men and women—in a range of ways from crisis intervention through to counselling and relationship education.

We also provide a range of support services for people at risk of homelessness, families and young people in crisis, people with mental illness and people with a disability—supporting connections with family, culture and community.

All staff are supported and trained in their specified program areas and are committed to providing professional support to their clients.

Anglicare Central Queensland acknowledges the Department of Housing and Public Works and the Department of Communities, Child Safety and Disability Services for their contributions.

## Values

### **Service**

Our primary focus is on service to the community and each other. We believe serving is an attitude, a desire to assist others, which underpins all our relationships.

### **Hope**

We work with people to shine a light of future possibilities in their life. We plant seeds of confidence and nurture them to encourage good and meaningful choices. This generates a sense of independence and freedom. We believe hope related to DOING nurtures hope related BEING.

### **Compassion**

We have genuine concern for the hurt and suffering of people in our communities. In working with individuals we act wisely to bring relief to their circumstances in whatever we can.

### **Social Justice**

We advocate on behalf of the poor, vulnerable and/or disadvantaged in our communities. In doing so we seek to achieve equity, fairness and recognition of the worth and dignity of people, free from discrimination.

### **Healing**

We assist people on their journey of healing. In doing so we provide unconditional, positive support to foster release of hurt, forgiveness and strengthening of the whole person.
