

CMCT01 Case Management (National Certification) Competency Training *this event is hosted by Australian Red Cross*

“essential training for the case management agency, educator, practitioner, professional or supervisor”

This specialist training brought to you by the Case Management Society of Australia & New Zealand (CMSA) is fundamental for all individuals and agencies to demonstrate they hold the necessary skills, knowledge and qualifications required to provide case management in accordance with the national practice Standards for case management in Australia and New Zealand.

For those providing Consumer Directed Care or Individualised Care this training is critical to understand what is expected in case management by funding bodies. Organisations are now required to demonstrate employees have the necessary skills and qualifications to undertake case management roles.

All participants receive a copy of the National Standards of Practice for Case Management (3rd Revised Edition 2013) and National Code of Ethics for Case Management (2nd Edition 2013).

To view the course outline please go to

<http://www.cmsa.org.au/events-info/competency-in-the-national-standards-for-case-managers>

Training objectives

- understand each of the four (4) National Standards of Practice for Case Management and their relevance and application to your role (practical, managerial or theoretical) and client group
- receive the resources necessary to review, measure and assess professional practice, performance and compliance against the National Standards of Practice for case management
- obtain the fundamentals to embed professional responsibility, accountability and an ethically uniform approach to case management, both at the practitioner, program and agency level of practice
- be knowledgeable in the values, principals, ethical practice and professional conduct for case management and informed of your individual professional responsibilities
- acquire the necessary resources and tools to facilitate best practice case management in accordance with evidence based Standards
- attain one (1) of the pre-requisites required to apply for National Certification .

Target audience

Suitable for individuals and groups working within health, education, social and human service settings, welfare and independent practice, including:

- allied health • case managers • child safety officers • community mental health workers
- case coordinators • counsellors • disability officers • educators • managers • human resource managers • outreach workers • program managers • program and policy planners • registered nurses • rehabilitation officers • residential care workers • senior managers • special needs officers
