

**THE UNTOLD STORIES
OF
CQUNIVERSITY GRADUATES**

CQUniversity is very aware that there are countless 'Untold Stories' of graduates who, thanks to their study at the University, are out in the community doing great things.

We'd like to record some of those stories to form a general repository for many CQUni communicators to draw from, showing 'the *difference we make*' in speeches, news releases, ads, funding submissions, brochures etc.

We don't mind if you are a recent or distant past-grad, or if you took years to complete your studies or even if you just scraped through, we just want to be able to show that skills developed through your education at CQUni, are now being used to improve your life and the lives of others.

If you're out there making a difference in the world thanks to the time you spent at CQUniversity, we want to hear from you.

Please contact :
