Kits available at:
<http://www.communitylegal.org.au/>

FREE SEMINAR

**Would you like to know how to deal with
Child Safety and what to expect from
them?**

**Are you finding it difficult to
communicate and deal with Child
Safety on behalf of your client?**

Sometimes dealing with Child Safety is like trying to communicate with aliens. They speak a whole different language.

What might help you is if you attend one of our Community Legal Education Seminars for non-government Workers in the Social Services area.

We have been delivering community legal education to non-government workers in Queensland for a number of years. Why not enhance your skills and attend.

Be guided through our Information Kit on Child Protection for Workers by one of our solicitors. A significant part of this learning program is the anecdotal references of our solicitors.
