Both the Diploma of Management and Diploma of Business are designed to give you the practical business skills, knowledge and understanding required to manage real-life situations.

Become a leader in family, community and the workplace.

Managers, supervisors and business staff have a significant leadership role within their organisations, and through these programs you will gain business and operational skills through industry-focused learning.

Graduate core capabilities:

- Strong leadership skills
- Competency for management roles
- Effective people management skills
- Skills to run your own business
- Potential to fast track a university degree
- Obtain a nationally accredited qualification
